Subject: [External] Dominion's proposed net metering tariff

I have solar panels installed on my home's roof at [REDACTED] t, Columbia SC 29205. I understand that Dominion Energy is proposing new fees and rate charges that will add more than \$750 to my annual energy bill. It is my understanding that the net metering proposal is filed with the Public Service Commission as Docket #2020-229-E.

These proposed additional charges will not only penalize me for having solar panels on my roof, but will likely discourage potential customers from installing solar panels. Please reject this proposal and any other anti-renewable proposals from Dominion Energy.
